RE: REQUEST FOR RECONSIDERATION

Sir:

The following is a response to the Denial for a Certificate of Correction dated 02/27/2009 relating to Patent Number 7,025,448.

In the Certificate of Correction dated 02/17/2009 submitted for patent number 7,025,448, a correction was requested in claim 5 (corresponds to claim 12 of application with serial no. 10/665,752 filed on 11/19/2003).

Claim 12 in the application dated 11/19/2003 reads:

Claim 12. The method of Claim 8, *further comprising: filling the ink container with a supply of liquid pigmented ink.*

In the amendment dated 06/07/2004, claim 12 was marked 'original', and changed to the following:

Claim 12. (Original) The method of Claim 8, *wherein the step of providing a fluid interconnect tower includes positioning a filter at the distal end of the fluid interconnect tower.*

and, the same has been incorporated into the issued patent.

The content of claim 12 in the application dated 11/19/2003 was inadvertently changed during the prosecution, as shown above and was carried forward throughout. Thus claim 12 (as filed on 11/19/2003) of the application should be incorporated into the issued patent as claim 5.

Please note that a fee of \$100 has already been charged on account of another applicant error corrected by the Certificate of Correction dated 02/17/2009. It is requested therefore, that the present applicant error be corrected with no additional charge.

For the foregoing reasons, it is respectfully requested that the above-identified error be corrected.
